

Your DOS games folder

This folder has been created by Boxer as a place to keep your DOS games. You can open this folder from Boxer, and Boxer will put new games here when it imports them. You can rename the folder or move it wherever you like—Boxer will still find it.

Boxer has also stocked this folder with free DOS games for you to try. These games are in ready-to-play Boxer gameboxes: double-click on one to start it up.

[Check out the Boxer website](#) for other sample games and tips on where to find more DOS gaming goodness. Feel free to throw away this document once you're done reading.
